1 Summary

Summary not available for "V23B_large_bioassay"

2 Mortality

Table 1: Mortality summary.

	bioassay_treatment	ntotal	ndead	mortality	adjusted_mortality	significance
0	control	27	2	0.074074	0.000000	1.000000
1	virus	26	12	0.461538	0.418462	0.001756

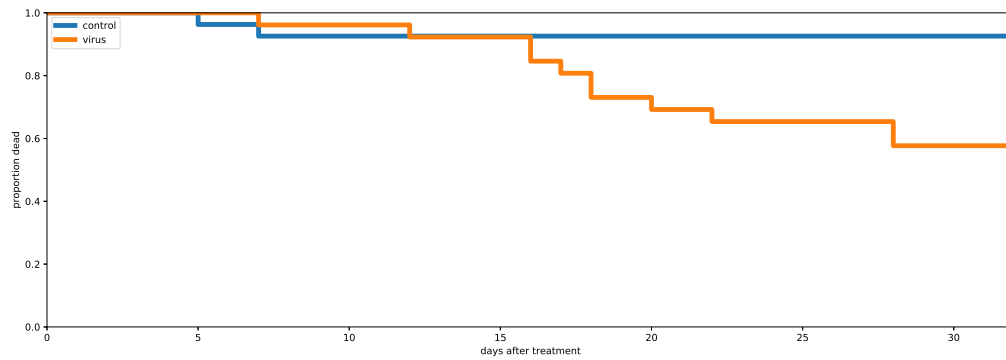

Table 2: Pairwise differences among mortality curves.

		test_statistic	p
control	virus	9.25025	0.002355

3 Change in Mass

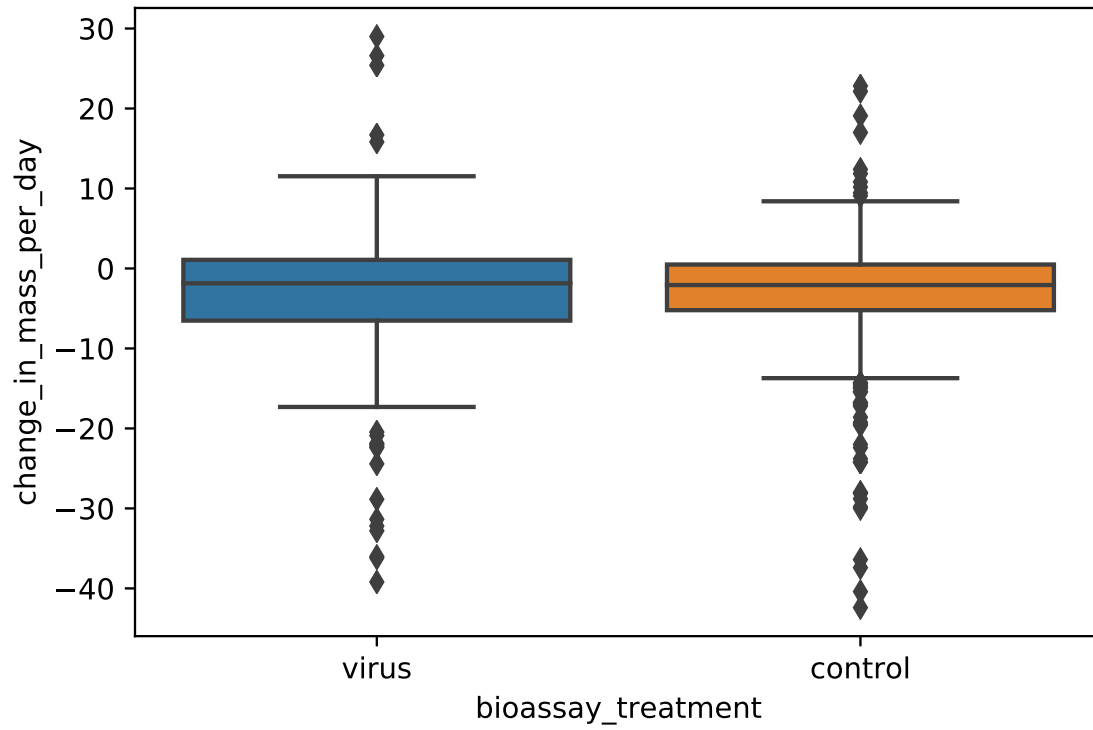

Table 3: Results of pairwise significance tests for differences in change in mass.

	control	virus
control	-1.000000	0.766286
virus	0.766286	-1.000000
